

## **Supplemental Educational Relief Grants for Non-public Schools**

ARP EANS award amount – **\$73,683,257.00**

- EANS funds awarded – **\$10,258,111.46**
- Administrative funds (5%) – \$3,684,162.85
- Total to still be awarded under GEER – **\$59,605,895.41**

### **Overview**

- Tennessee private schools have had two opportunities to participate in the federal Emergency Assistance for Nonpublic Schools (EANS) program, which the department refers to as EANS 1 and EANS 2.
- Nonpublic schools could participate in EANS or the Paycheck Protection Program (PPP) or neither. Nonpublics were not required to report if they elected the PPP, but our understanding is that was a better program and many opted into that one instead of EANS.

### **EANS 2.0**

- Under EANS 2, the department was required to meet new requirements established by the federal government:
  - No EANS 2 funds could provide any reimbursements to any non-public schools (this accounted for over 80% of the EANS 1 funds awarded to nonpublics); and
  - Participating schools were limited to “non-public schools that enroll a significant percentage of [students from low-income families] and are most impacted by the [COVID-19] emergency.” USDOE set the poverty eligibility for schools at 40% and required data from schools to prove eligibility.
- In early winter, the department petitioned USDOE to reduce the federal poverty rate for EANS eligibility from 40% to 33%, based on the average poverty rate of participating nonpublic schools in EANS 1, and was approved.
- On February 24, after Tennessee had released its EANS 2 application to nonpublic schools, USDOE held a webinar and subsequently published a memo stating proportionality could not be used to calculate the poverty rate for nonpublic schools, which was allowed under EANS 1.
- TDOE, along with several other states, petitioned USDOE to allow for the use of proportionality but was denied.

### **Participation**

- TDOE contacted 481 eligible nonpublic schools for EANS 2.
  - 55 nonpublic schools started an application; 44 schools completed and submitted an application by April 1; and 22 schools were deemed eligible through USDOE allowed poverty data. In all, 50% of schools that submitted an application were awarded EANS 2 funds.
- The participation rate of nonpublic schools for EANS 1 was 19% and was 5% for EANS 2.
- There is no data reported to TDOE about whether nonpublics elected to participate in PPP instead of EANS.

### **Next Steps**

- The department has allocated EANS 2 amounts based on federal allowability and applications.
- The department is waiting direction on how to spend the EANS 2 funding that has been transferred into GEER.

Options are based on the specific requests made of the department. GEER funds are only administered by the department, but the entirety of the choice about how funds are allocated must be made by the Governor of the State (and FSAG). Therefore, the options provided do not reflect any position of the state agency and only the requests made by the decision-making body.
