Victims Services

Outcomes

Program/Intervention Name	Description/Additional Information
Victims Services <input checked="" type="checkbox"/> Program <input type="checkbox"/> Intervention within Program:	Victims Services provides funding to support foundational services for victims of crime, including safe housing, crisis hotlines, forensic exams, victim advocacy, therapeutic services, legal assistance, and more. Program funding also provides opportunities for innovative, systems-level projects that focus on coordination between multiple agencies and levels of government, like Family Justice Centers, Sexual Assault Response Teams, and High-Risk Domestic Violence Response Teams.
Delivery Setting	Target Population
Organization/Business/Local Government, Court, Home, Mobile, Residential Facility, School, Other Community Setting	Infancy/Early Childhood, Children, Adolescents/Young Adults, Adults, Families

Logic Model	Outputs	Outcome(s)
If victims of crime are supported throughout their recovery, including, but not limited to, emergency shelter services, advocacy services, and court advocacy services, then the negative effects of their experienced trauma will be mitigated, possible re-victimization avoided, and victims will feel safer.	1. Number of victims served	1. Percentage of crime victims' experience a sense of safety and security after services.
	2. Number of referrals	2. Percentage of crime victims whose knowledge of victims services increased after receiving services
	3. Number of service encounters	3. Percent in knowledge of the criminal justice system among crime victims

(I) Domestic Violence

Evidence

Program/Intervention Name	Description/Additional Information
Domestic Violence <input type="checkbox"/> Program <input checked="" type="checkbox"/> Intervention within Program: Victims Services	The Domestic Violence program aims to reduce the trauma or effects of trauma caused by domestic violence. It does this by providing funding to support services such as therapeutic services, court advocacy, household necessities, transportation support, as well as additional possible supports. It provides a safety plan that may include temporary, safe shelter.
Delivery Setting	Target Population
Organization/Business/Local Government, Court, Residential Facility, Other Community Setting	Adults, Families

Logic Model	Outputs	Outcome(s)
If we provide services to victims of domestic violence; such as therapeutic services, court advocacy, providing household necessities, transportation support, temporary, safe shelter, then we will ensure safe environments for these individuals; build knowledge about victim services, criminal justice system, and supports; and reduce the trauma or effects of trauma caused by domestic violence.	1. Number of participants in shelters (unduplicated residential clients)	1. Percentage of domestic violence victims' sense of safety and security
	2. Number of participants not in shelters (unduplicated non-residential clients)	2. Percentage of domestic violence victims' knowledge of victim services
	3. Number of bed nights	3. Percentage of knowledge of the criminal justice system among domestic violence victims.
	4. Number of service encounters

Innovations with Justice-involved Individuals

Strong Evidence

Program/Intervention Name		Description/Additional Information	
Innovations with Justice-involved Individuals <input checked="" type="checkbox"/> Program <input type="checkbox"/> Intervention within Program:		This program helps incarcerated individuals prepare for successful reintegration into the community and provides funding to support community corrections programming such as providing a broader range of options outside of incarceration or offering direct services to meet the basic needs of the Justice-involved individual. This minimizes the risk of these individuals re-entering the justice system as well as making the communities of Tennessee safer.	
Delivery Setting		Target Population	
Organization/Business/Local Government, Correctional Facility		Adolescents/Young Adults, Adults, Justice-involved	

Logic Model	Outputs	Outcome(s)
If we address the needs of Justice-involved individuals such as treatment for mental illness or drug addiction, offering vocational or evidence-based training to incarcerated individuals, or ensuring there are other alternatives to incarceration when it's appropriate, then these individuals are less likely to recidivate, and Tennessee communities will remain safer.	1. Number of pre-trial grants	
	2. Number of re-entry grants	
	3. Number of evidence-based programs currently provided	
	4. Number that successfully complete programming

(I) Evidence Based Programming (EBP)

Evidence

Program/Intervention Name	Description/Additional Information
Evidence Based Programming (EBP) <input type="checkbox"/> Program <input checked="" type="checkbox"/> Intervention within Program: Innovations with Justice-involved Individuals	Evidence Based Programming (EBP) provides educational, therapeutic, and vocational training to inmates in local jails to support their successful transition back into their communities upon release. The program emphasizes the use of training, backed by research, and found to be effective, to help reduce the chances of reincarceration. EBP uses evidence-based training, like Living in Balance, Moral Reconciliation Therapy, and Thinking for a Change, to help reduce the chances of reincarceration.
Delivery Setting	Target Population
Correctional Facility	Adults, Justice-involved

Logic Model	Outputs	Outcome(s)
If we provide incarcerated individuals with evidence-based programming prior to their release, including education, behavioral therapies, and vocational training, then those individuals will be more likely to have successful re-entries into their communities and be less likely to recidivate.

Innovations in Criminal Investigations

Outcomes

Program/Intervention Name	Description/Additional Information
Innovations in Criminal Investigations <input checked="" type="checkbox"/> Program <input type="checkbox"/> Intervention within Program:	<p>The purpose of this program is to encourage process improvements in the field of criminal investigations, to enhance the effectiveness of enforcement activities, and to create new and innovative approaches to criminal investigations. Projects funded under the program include, but are not limited to, creating new multi-jurisdictional task forces for investigation, advances in crime analysis, conducting computer forensics investigations, operating cold case units, and operating anti-gang investigation and enforcement units. This program includes evidence-based interventions including High Point Drug Market Intervention, and the Impact of Statewide Ignition Interlock Laws Interventions. Initially for implementation we expect an increase of arrests, but in the long-term arrests should decrease.</p>
Delivery Setting	Target Population
Organization/Business/Local Government, Correctional Facility, Home, Mobile, Residential Facility, School, Other Community Setting	Adolescents/Young Adults, Adults

Logic Model	Outputs	Outcome(s)
<p>If criminal investigation methods are improved and used to do things such as combat the availability of illegal drugs, target “hot spots” of crime, reduce children’s exposure to internet criminal activity, and train law enforcement officers in other innovative methods, then crime will be reduced and those effected by crime will feel supported in their communities.</p>	1. Number of Drug Task Forces (DTFs) supported	1. Percent of misdemeanor arrests
	2. Number of internet crime cases investigated	2. Percent of felony arrests
	3. Number of law enforcement training participants

(I) Violent Crime Intervention

Evidence

Program/Intervention Name	Description/Additional Information
Violent Crime Intervention <input type="checkbox"/> Program <input checked="" type="checkbox"/> Intervention within Program: Innovations in Criminal Investigations	The Violent Crime Intervention program provides grant funds for local law enforcement agencies to implement evidence-based programs, technology, and strategies, such as community policing, policing through environmental design, crime analysis, and place-based investigations, that will reduce violent crime in our communities. Violent Crime Intervention uses multiple Evidence-Based interventions to support local law enforcement agencies such as Hot Spots Policing, Community Policing, and Geographically Focused Policing Initiatives.
Delivery Setting	Target Population
Organization/Business/Local Government	Adults, Justice-involved

Logic Model	Outputs	Outcome(s)
If we provide grant funds to local law enforcement agencies in support of evidence-based programs, technology and strategies designed to reduce violent crimes, including community policing, policing through environmental design, crime analysis, and place-based investigations, then we will have less violent crime in Tennessee, including less domestic violence, gang violence and human trafficking.	1. Number of grants addressing DV	
	2. Number of grants addressing gang violence	
	3. Number of grants addressing human trafficking

Court Based Programs

 **Outcomes**

Program/Intervention Name	Description/Additional Information
Court Based Programs <input checked="" type="checkbox"/> Program <input type="checkbox"/> Intervention within Program:	<p>These programs provide funding to support court-based services for individuals engaged with the criminal justice system in order to ensure access to a fair and equitable criminal justice system as well as access to the civil legal system by providing representation, supportive services, advocacy, and access to justice and legal resources. Examples of services include evidence-based prosecution, legal representation in the criminal and civil justice systems, and effective prosecution for domestic violence and sexual assault cases.</p>
Delivery Setting	Target Population
Court	Adults, Justice-involved

Logic Model	Outputs	Outcome(s)
<p>If a broad spectrum of court-based services is provided—such as evidence-based prosecution, legal representation in the criminal and civil justice systems, and effective prosecution for domestic violence and sexual assault cases—then victim safety, offender accountability, and access to support and advocacy will all be improved.</p>	1. Number of cases accepted	<p>1. Percent of crime victims receiving court-based services that become knowledgeable about the criminal justice system</p>
	2. Number of Orders of Protection granted	
	3. Number of victims served

AmeriCorps

Outcomes

Program/Intervention Name	Description/Additional Information
AmeriCorps <input checked="" type="checkbox"/> Program <input type="checkbox"/> Intervention within Program:	AmeriCorps is a national service program that provides an opportunity for Americans of all ages and backgrounds to give their time and talent to address critical community needs like increasing academic achievement, mentoring youth, fighting poverty, sustaining national parks, preparing for disasters, and more. Subrecipients (local non-profit organizations receiving funding) engage AmeriCorps members in service activities in the priority areas of: Education, including through Teacher Corps such as Teach for America, an evidence-based program; Disaster Services; Economic Opportunity; Environmental Stewardship; Healthy Futures; Veterans and Military Families; and Other Human Needs.
Delivery Setting	Target Population
Organization/Business/Local Government, Home, Outdoor Space, School, Other Community Setting	Infancy/Early Childhood, Children, Adolescents/Young Adults, Adults, Families, Businesses/Entrepreneurs, Veterans

Logic Model	Outputs	Outcome(s)
If we provide an opportunity for Americans of all ages and backgrounds to give their time and talent to address critical community needs, including increasing academic achievement, mentoring youth, fighting poverty, sustaining national parks, and preparing for disasters, then we will help solve community problems and strengthen educational, public safety, environmental, and human-services outcomes within the state.	1. Number of people served related to improving health outcomes	1. Percentage of people served who experience improved health outcomes
	2. Number of students served related to education programs	2. Percentage of students served by education programs that demonstrate academic improvement
	3. Number of people accessing economic opportunity and workforce development resources	3. Percentage of people served with improved access to safe, healthy, affordable housing
