

PARIS LANDING STATE PARK

This 1,126-acre park is located on the western shore of the Tennessee River which is dammed to form Kentucky Lake (160,000 acres). The park sits on the widest part of the lake (three miles wide) and is the perfect location for all water sports such as fishing, boating, swimming and skiing. On land, there is plenty of activity with golfing, hiking, camping or just relaxing and enjoying the natural beauty and wildlife. Be on the lookout for deer, turkey, fox and coyote which roam the park. Eagles are often seen in the winter months.

HISTORICAL SIGNIFICANCE

Paris Landing State Park was named after an old steamboat and freight landing on the Tennessee River. In the 1800s, the river landing was an important spot for the delivery of goods, and an important shipping point for produce and other agricultural products. The site became a state park in 1945.
